

**Lighted visual aid
to indicate
temporary runway closure**

LED module

- LED simulation & Heat dissipation structure
- High Power LED
- Light Efficiency Improvement
- Best light distribution design

Hydraulic automation system

- Automatic angle control

Folding structure

- Easy to moving
- Minimize storage space and convenience
- Minimize wind resistance design

Hydraulic support construction

- Support stable working
- Withstanding strong winds

Moving trailer

- Mobility (10~100km)
- Included synchronization of lighting and flash control by GPS communication
